Aerosolutions Carbon Remover

Carbon Remover and Degreaser

Aerosolutions Carbon Remover is a safe yet potent cleaner, carbon remover and degreaser designed specifically for the aeronautic industry. The power comes from our patented SynClean, a hydrocarbon displacement technology that safely removes soot, grease, and grime in numerous industries.

SynClean safely lifts grease from any surface without the use of solvents. As such it is able to remove petroleum based oils, grease, carbon scoring, dirt, fuel spills, without endangering your equipment or the environment.

Aerosolutions Carbon Remover has been tested and proven to effectively remove carbon build-up that is common to all aircraft without harm to the seals and gaskets. Contains a safe blend of detergents, wetting agents, sequestering agents, penetrates, rust and corrosion inhibitors.

As with all Cleanse It All formulations, Aerosolutions Carbon Remover is a water soluble, non-butyl, biodegradable, non-flammable, non-toxic product. It is delivered as a potent concentrate which costs only pennies per diluted gallon to use. Pleasantly scented and stainless, Aerosolutions Carbon Remover leaves no oily film or gummy residue.

Aerosolutions Carbon Remover meets or exceeds military specifications # MIL-PFR-85570D, SUPERSEDING, is approved for all Boeing aircraft and related parts, and is even safe on helicopters. We are also proud to be on the Priority Procurement List for the U.S. Air Force and NASA for the cleaning of its aircraft and spacecraft.

- **Non-Butyl**
- **Non-Petroleum**
- **100% Biodegradable**
- **Boeing Approved**
- **Exceeds Mil Specs**
- **Safe on Helicopters**
- **Removes Soot**
- **Dissolves Carbon Scoring**
- **Non-Regulated**
- **MIL PRF 85570 D, Type 2**
- **Meets Boeing D6-17487P**
