

Barracuda 10K

Super Strength Concrete Stripper

Barracuda 10K is not only the most potent concrete stripper in the world, it is also the safest. Independent tests confirm that Barracuda 10K, formed with EMS' patented SynTech, the world's only synthetic acid, dissolves nearly 15% more concrete than hydrochloric acid. Still, that potency comes with a triple zero HMIS score. Which makes our concrete stripper safe on skin, safe for your equipment and safe to store anywhere you wish.

Barracuda 10K is so safe it is recommended by leaders in the cement industry including Mack, McNeilus, Oshkosh, London, Indiana Phoenix and others. It is safe on paint, chrome, wiring, plastic, aluminum and even glass.

Barracuda 10K contains no acid and is non-corrosive, allowing you to apply it to any kind of equipment. It is so safe it can be left on overnight to loosen the heaviest buildup. Ideal for cleaning forms, pavers, portable mixers, swimming pools, tools, windows, anywhere you find cement, gunite or mortar. Any cleaning that once required the use of dangerous, toxic acids can now be safely done with Barracuda. It is entirely synthetic, so no neutralizing step is required. Simple rinse with water.

Barracuda 10K concrete stripper is non-D.O.T. regulated and is readily biodegradable per OECD 301D. Barracuda is non-fuming, will not corrode or rust metals and is 100% OSHA safety compliant.

- **Removes Concrete**
- **Non-Corrosive**
- **100% Acid Free**
- **Non-Fuming**
- **Non-D.O.T. Regulated**
- **100% Biodegradable**
- **Safe on Glass & Chrome**
- **One-Step Process**
- **Exceeds OSHA and EPA**
- **Removes Mineral Stains**
- **Safe on Skin**
