## SapH WT

### Synthetic Acid Beverage Line Treatment

Resorts, theme parks, concert venues, stadiums, restaurants and bars all are required to regularly clean their beverage lines, whether they serve juice, soda, or beer. Clean lines ensure the quality of the beverage and allow vendors to meet brewery/state guidelines.

Until now, the only effective way to clean beverage lines has been to use harsh mineral acids. While these acids are effective, they also pose significant challenges in their storage and use. Now there is a revolutionary chlorine-free, non-corrosive, non-irritating, biodegradable solution – SapH WT.

SapH WT employs Xtreme technology - a colorless, odorless broad spectrum deodorizer and detergent tested and proven to kill bacteria, fungus and viruses. Xtreme uses patented bound vegetative microbes to quickly degrade petroleum hydrocarbons, vegetable and animal fats, oils greases, waste solids and other organic compounds. By combining Xtreme with the power of SynTech®, the world's only synthetic acid, you get an extremely effective juice, soda and beer line treatment (without the use of quat or chlorine). SynTech carries a triple-zero HMIS score, is rated non-corrosive, non-fuming, 100% biodegradable, and non-mutagenic to fish and wildlife.

SapH WT has been proven to pose no inhalation risk, exceeds all D.O.T. corrosion and EPA requirements and, as such, requires no secondary containment.

NSF certified G1, G5, G7, Q1, Q2 and L1.

- **100% Synthetic Acid**
- **Non-Corrosive**
- **Non-Skin Irritant**
- **Non-D.O.T. Regulated**
- **Balances pH**
- **No Secondary Containment**
- **Non-Mutagenic**
- **Outperforms Hydrochloric Acid**
- **No Disposal Restrictions**

Cleanse It All Global, LLC (CIAG) is a direct distributor of EMS, Environmental Manufacturing Solutions, LLC. EMS is the manufacturer of all products marketed by CIAG and listed on our website. EMS carries all U.S. related certifications, approvals and registration of the individual products. Cleanse It All Global does not assert that we maintain any U.S. related designations for any products marketed or listed on our website. Please reference the EMS website for any and all U.S. related designations for each product in question: [www.enviromfg.com](http://www.enviromfg.com)
