SynClean HD

High Detergency High Foaming Industrial Cleaner and Degreaser

SynClean HD is unlike any industrial degreaser on the market. Its superior degreasing power comes from a patented ingredient that safely lifts grease from any surface without the use of solvents. As such, it easily removes petroleum-based oils, vegetable and animal fats, along with dirt, protein, soils and more.

Other degreasers with the power of SynClean HD are solvent or butyl based, and work by emulsifying the grease from the top of the stain down to the surface where it lies. SynClean HD encapsulates each hydrocarbon molecule, lifting it from the surface. This means SynClean HD does not break down the hydrocarbons to where they absorb water, take on weight and sink to the bottom of a grease trap or containment unit.

The grease pulled away by SynClean HD remains in its original form. SynClean HD also contains detergent, wetting and sequestering agents, penetrants, rust and corrosion inhibitors making it a true all-in-one cleaner for any use. And a little goes a long way. At a 5:1 dilution SynClean HD easily removes caked-on hydraulic fluid. At 10:1 SynClean HD easily cleans a dirty fry hood, or removes caked on milk residue. Use at 30:1 for carpets, vehicles or floors. Even at 100:1 it will clean filthy windows and leave behind a streak free finish.

SynClean HD is so safe it is recommended by truck giants Volvo and Mack to safely clean big rigs. SynClean HD is NSF approved and Kosher approved.

The HD stands for high detergency which will provide ample foam. SynClean HD works equally with cold or hot water and is safe for use in rotary, steam cleaning machines and car parts washers.

And because SynClean HD comes with a triple-zero HMIS score, you can store and use the product without special considerations.

This product is also available in a low foaming formulation ideal for carpet cleaners, rotary machines, and parts cleaners.

- **Non-Butyl**
- **Non-Toxic**
- **Non-Solvent**
- **Lifts Grease**
- **Cuts Animal Fats**
- **Cuts Vegetable Fats**
- **Non-Emulsifying**
- **NSF and DFE Approved**
- **Kosher Approved**
- **Reduces Grease Trap Maintenance**
- **Low Foam and Neutral pH Formulations**
- **MIL PRF 85570, Type 2**

Cleanse It All Global, LLC (CIAG) is a direct distributor of EMS, Environmental Manufacturing Solutions, LLC. EMS is the manufacturer of all products marketed by CIAG and listed on our website. EMS carries all U.S. related certifications, approvals and registration of the individual products. Cleanse It All Global does not assert that we maintain any U.S. related designations for any products marketed or listed on our website. Please reference the EMS website for any and all U.S. related designations for each product in question: www.enviromfg.com
